EDUCATION

Shiraz University, Shiraz — *Bachelor of Science*

September 2024 - Ongoing

Electrical Engineering

Relevant coursework : Signals & Systems , Linear Algebra , Engineering Probability, Electronics .

Stanford CS 224N By Cristopher Manning

MIT , introduction to ML by Leslie Kaelbling

PROJECTS

Img-Transformer — *Pytorch*

Reimplemented the image transformer paper using pytorch
Trained it on the CIFAR-10 dataset for image generation

Mini-Transformer — *Pytorch*

Reimplemented the Attention is all you need paper using Pytorch
trained it on the WMT-2014 German-English dataset (a subset of length 100,000 due to lack of hardware)

Character Level Language Model — *Python , Numpy*

Designed and implemented a Character level language model using an N-layer Long Short-Term Memory (LSTM) recurrent neural network . Trained it on the Shakespeare Dataset to generate Stylized Text

Word2Vec & GloVe implementations - *Python , Numpy*

Built a Word2Vec pipeline implementing Skip-gram with Negative Sampling (SGNS) from the ground up, utilizing AdaGrad optimization for adaptive learning rates. Developed a Global Vectors for Word Representation (GloVe) model from scratch

Named Entity Recognition (NER) - *Pytorch*

SKILLS

Languages : Python , Matlab

Frameworks & Libraries :

Pytorch, Tensorflow, Numpy
Pandas , Scikit-learn , Matplotlib

Research Areas : NLP ,RL , Deep Learning , Computer Vision

LANGUAGES

English, German, Farsi
